

ANEES UR REHMAN

SOFTWARE ENGINEER

+92 3135983050 | aneesriaz7715@gmail.com | Sikanderpur, Haripur, KPK, Pakistan
DOB: 15-12-2002

OBJECTIVE:

Software Engineering graduate currently working as a Full Stack Developer Intern, with a strong interest in frontend development, basics knowledge of Python, and growing exposure to backend and AI fundamentals, seeking an opportunity to learn, contribute, and grow through real-world software projects.

WORK EXPERIENCE:

Full Stack Developer Intern | Giga Developers

Oct 2025 – Present

Developed full-stack web applications using the MERN stack, implementing REST APIs, authentication, role-based access control, real-time communication with Socket.io, and dashboard analytics for office and workforce management systems.

Key Projects:

- **FYP | Scrapify** - Developed an AI-powered web scraping platform using Next.js, Puppeteer, and OpenAI API for extracting data from dynamic websites, with features including content summarization, smart filtering, and CSV/JSON export
- **OfficeSphere** - Built a MERN-stack office management platform with real-time communication, project management, task tracking, and workflow automation for team productivity.
- **Security Guard Management Portal** - MERN-stack security management platform for shift scheduling, attendance tracking, GPS monitoring, and incident reporting.
- **Mashallah Matrimony Platform** - React-based Muslim dating and matrimony platform featuring user authentication, responsive design, and modern UI development using React, Tailwind CSS, and React Router.

Artificial Intelligence (Machine Learning; Deep Learning; Communication)

Sep 2025 – Dec 2025

NAVTTTC, Government of Pakistan | SOUL Institute Haripur

Completed NAVTTTC-certified training in Artificial Intelligence, Machine Learning, and Deep Learning, with hands-on experience in data preprocessing, model training, predictive modeling, neural networks, and AI applications for real-world problem-solving and intelligent systems development.

Key Projects:

- **Exam Cheating Detection System** - Real-time cheating detection using YOLO, PyTorch, and OpenCV.
- **Helmet & Number Plate Detection System** - Automated helmet and vehicle number plate detection using YOLO and OpenCV.

EDUCATION:

Bachelor of Science in Software Engineering

Graduated 2025

University of Haripur | CGPA 3.20

CERTIFICATES:

- Career Essentials in Software Development Certificate | **Microsoft & LinkedIn** Jul 2025
- Frontend Development Internship Certificate | **Innova Corex** Apr 2025
- Artificial Intelligence Course | **NAVTTTC (Government of Pakistan)** Jan 2026

SKILLS:

- HTML, CSS, JavaScript, Tailwind CSS, Bootstrap
- Next.js, React.js, Node.js, Express.js
- MongoDB, MySQL
- Git, GitHub
- Python and AI (Basics)
